

Copy a project

Ester Andersson - 2024-05-22 - Tips & Tricks

To copy a project, please follow these steps:

1. Click on the course you wish to copy.
2. Click on "Copy".

1. Remember: if you have the course catalog turned on, the copy will automatically be connected to the original course and if both courses are live in the catalog, they will be displayed in the same collection.
