

Copying a project to another sub portal

Ester Andersson - 2024-07-29 - Tips & Tricks

1. Go to the client you wish to copy a project from
2. Go to the project you wish to copy
3. Click on the triangle on the right-hand side of the "Copy" button and click "Copy to another client"
4. If the course has content that is from the local client library you will be asked to confirm that those will be copied to the other client as well.
5. Select which client you wish to copy the template to
6. All done!

The screenshot shows the Learnifier dashboard for a project titled "Customer Success Playbook". The dashboard includes a navigation bar with options like Dashboard, Projects, Users, Library, Reports, Automations, and Settings. Below the navigation bar, there are tabs for Overview, Participants, Waitlist, Course Page, Events, Assignments, Details, Communications, Reports, and Settings. The main content area displays the project title, course title, creation and update dates, and a "Copy" button. A green arrow points to the dropdown menu of the "Copy" button, which contains options for "Create template" and "Copy to another client". The dashboard also shows a "1 participants" section with a progress indicator, an "Awards" section with an "Attach" button, and a "Next Course" section with an "Add Next Course" button.
