How to set up SCIM

Ester Andersson - 2024-09-06 - API, SAML, integrations and general settings

To follow the instructions below, ensure you've received the secret token from Learnifier.

- 1. Go to Azure and open Microsoft Entra ID.
- 2. Locate "Enterprise applications".

🕂 New application 🕐 Refresh 🞍 Download (Export) 🛛 🚺 Preview info 🛛 🎫 Columns 🛛 🔤 Preview features 🛛 🞘 Got feedback?

1. Create your own application, name the app, and select "Integrate any other application you don't find in the gallery (non-gallery)".

		AGET DIRECTORT
Create yo	our own application	>
🔗 Got feedba	ck?	
	ping your own application, using Application Proxy, or want t is not in the gallery, you can create your own application here	-
What's the name	e of your app?	
Learnifier	\checkmark	
What are you loc	oking to do with your application?	
Configure A	pplication Proxy for secure remote access to an on-premises	application
O Register an a	application to integrate with Microsoft Entra ID (App you're d	eveloping)
Integrate an	y other application you don't find in the gallery (Non-gallery)	

Manage \rightarrow Provisioning:

- 1. Provisioning mode: "Automatic"
- 2. Admin credentials:
- 3. Tenant URL: "https://kund.learnifier.com/api/scim"
- 4. Secret token: "API key"
- 5. Test the connection.

i Overview		Provisioning Mode
😋 Provision on demand		Automatic \checkmark
√ Manage		Use Microsoft Entra to manage the creation and synchronization of user accounts in JK SCIM based on user and group
Provisioning		assignment.
Users and groups		
Expression builder		∧ Admin Credentials
> Monitor		Admin Credentials
> Troubleshoot		Microsoft Entra needs the following information to connect to JK SCIM's API and synchronize user data.
		Tenant URL * 💿
		This field is required.
		 Incorrect format
		Secret Token
		•
		Test Connection
		∧ Mappings
		Mappings
		Mappings allow you to define how data should flow between Microsoft Entra ID and customappsso.
		Normal Production

Note: If there is an error during synchronization, you can set up notifications for who should receive messages.

Next step after saving:

- 1. Go to "Mappings".
- 2. Set up groups and users that you want to transfer.
