

## Automatisk inbjudan vid genomförd kurs

Ester Andersson - 2024-10-27 - Funktioner

“Auto-enrollment upon course completion” är en funktion som låter systemet automatiskt registrera en deltagare i en ny kurs när en annan kurs är Completed.

1. Gå till den kurs som du vill att dina deltagare genomföra för att sedan bjudas in till en annan kurs.
2. Under "Next course", klicka på "Add next course". Välj den kurs som dina deltagare ska bjudas in till.
3. Skapa en "[Automated communication](#)" i nästa kurs för att låta systemet automatiskt skicka ett välkomst-e-postmeddelande till alla registrerade deltagare (inte obligatoriskt).
4. Nu har dina deltagare tillgång till kursen!

The screenshot shows the Learnifier course management interface for a course titled "Introduction to Learnifier". The course is currently in an "Ongoing" status. The interface includes a navigation bar with options like Dashboard, Projects, Users, Library, Reports, Automations, and Settings. Below the navigation bar, there are tabs for Overview, Participants, Waitlist, Course Page, Events, Assignments, Details, Communications, Reports, and Settings. The main content area displays course details, including creation and update dates, and buttons for editing, previewing, deleting, and copying the course. A summary of 9 participants is shown with a donut chart and a legend: 5 Not Started, 3 In Progress, 1 Completed, 7 On Track, 0 Overdue, 0 Not Invited, 0 Bounce Backs, and 0 Project Errors. There are also sections for Awards, Next Course (with a green arrow pointing to the "Add Next Course" button), Project Team, and Announcements.
