

Automatisk inskrivning vid kursavslut

Ester Andersson - 2024-02-15 - Funktioner

“Auto-enrollment upon course completion” är en funktion som låter systemet automatiskt registrera en deltagare i en ny kurs när en annan kurs är Completed.

1. Gå till den kurs som du vill att dina deltagare ska bli completed på, för att registreras i en annan.
2. Under "Next course", klicka på "Add next course". Välj den kurs som dina deltagare ska registreras i.
3. Skapa en “Automated communication” i nästa kurs för att låta systemet automatiskt skicka ett välkomst-e-postmeddelande till alla registrerade deltagare (inte obligatoriskt).

The screenshot shows the Learnifier interface for a course titled "Introduction to Learnifier". The course is currently in an "Ongoing" status. The interface includes a navigation menu at the top with options like Dashboard, Projects, Users, Library, Reports, Automations, and Settings. Below the course title, there are buttons for "Edit course", "Preview", "Delete", and "Copy".

The "9 participants" section shows a breakdown of participant statuses: 5 Not Started, 3 In Progress, 1 Completed, 9 On Track, 0 Overdue, 0 Not Invited, 0 Bounce Backs, and 0 Project Errors. A "Note" section is also visible.

The "Next Course" section, highlighted with a green arrow, allows for automatically enrolling learners who have completed this course into a subsequent course. It features an "Add Next Course" button.

Other sections include "Project Team" (currently empty) and "Announcements".
