

LTI 1.3 Resource

Gabriella Eriksson - 2025-02-23 - Biblioteket

How to collect an LTI 1.3 Resource from your connected tool provider

How to Add an LTI 1.3 Resource to the Library

1. Navigate to **Library** in the menu bar.
2. Go to the **Materials** section.
3. Click on **Add Materials**.
4. Select **LTI 1.3 Resource**.
5. Choose your **connected provider**.
6. Select and collect the **resource** you want to add.

The resource is now available in your library and can be added to any of your courses!

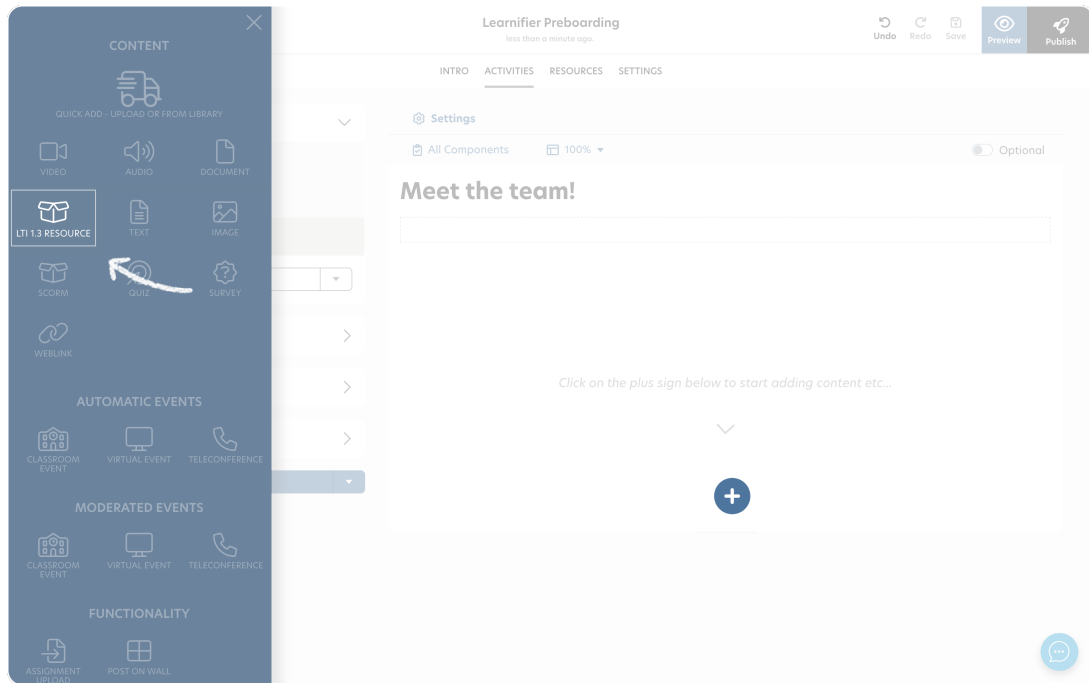

The screenshot shows the Learnifier interface. At the top, there's a navigation bar with the Learnifier logo and links to Dashboard, Projects, Users, Library, Reports, Automations, and Settings. On the right, there are links for Go To, a search icon, a bell icon, a chat icon, and a Demo user profile. Below the navigation bar, the 'Materials' section is active. It features a search bar and a table with columns for NAME, KIND, and UP. The table lists several folders: Awards, Course templates, Kunskapstest, LTI Resources, Personal folders, and Videos. To the right of the table, there are two buttons: 'Add Folder' and 'Add Materials'. The 'Add Materials' button is highlighted with a blue arrow. A dropdown menu is open from the 'Add Materials' button, showing various upload and creation options. Under the 'UPLOAD' section, there are options for Audio, Document, Image, Scorm, and Video. Under the 'CREATE' section, there are options for Text/HTML, Editable Video, Quiz, Survey, Certificate, and Diploma. Under the 'INTERNET/LINK' section, there are options for Internet Video, Image from Unsplash, Weblink, and LTI 1.3 Resource. The 'LTI 1.3 Resource' option is highlighted with a blue arrow.

How to Add an LTI 1.3 Resource Directly to a Course

1. Click on the **plus sign** to add content.
2. Select **LTI 1.3 Resource**.

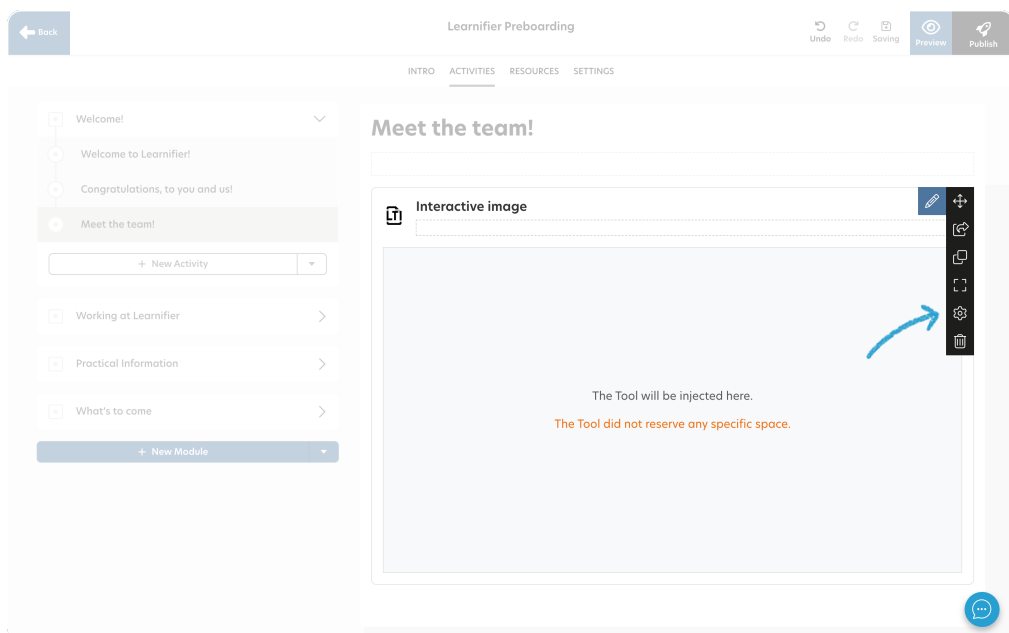

3. Choose your **connected provider**.
4. Select and collect the **resource** you want to add.

The resource has now been added to your activity!

Check the setting to ensure the resource will display in the activity (and not open in a new window).

1. Hover over the LTI resource and click the cogwheel

2. Select **Inline** for the resource to be displayed in the activity
