

## Adding or removing administrator

Ester Andersson - 2024-02-16 - Roles

**Administrators are users who have access to setting up projects, inviting/removing participants, building courses and managing communications, etc. Administrators have full access to all project data and details within the client portal in Learnifier.**

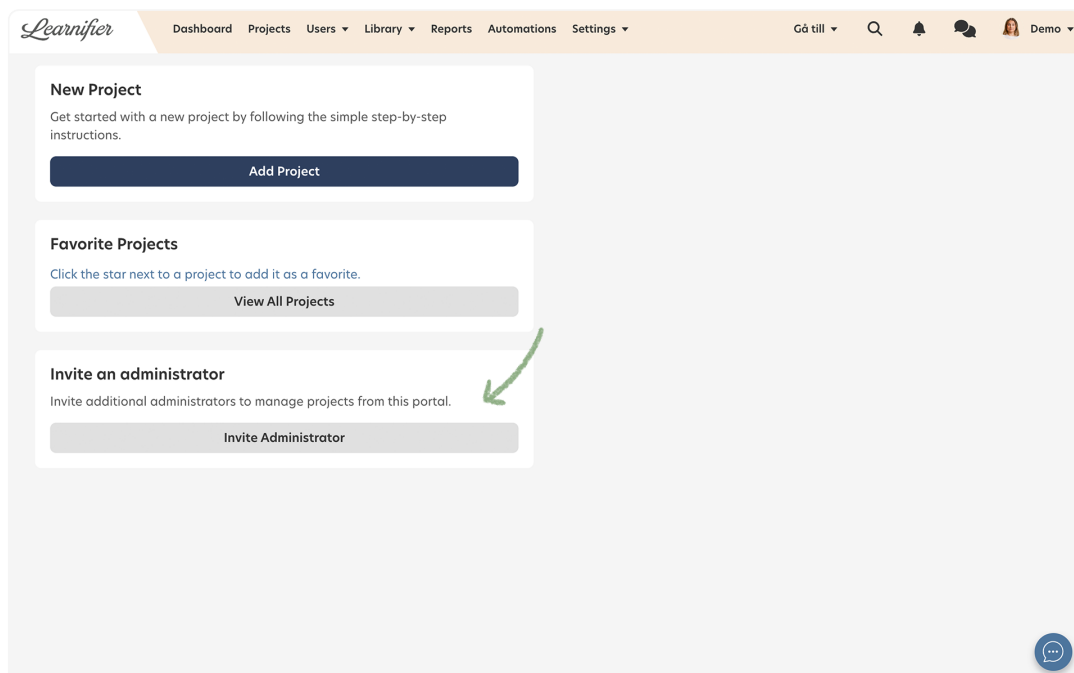

Note

- [Adding administrators](#)
- [Removing administrators](#)

### Adding administrators

**Alternative 1** (if the administrator is not already a user):

1. Go to "Dashboard" in the main menu.
2. Go to "Invite an administrator" and click "Invite administrator".
3. Enter the user's information and click "Save user details".
4. Click "Send email".

### Alternative 2 (if the administrator is already a user):

1. Go to the user profile.
2. Under "Roles", click "Add role".
3. Choose "Administrator" and click "Assign".

The screenshot shows the Learnifier user profile for 'Demo Ester'. The page is divided into two main sections. The top section displays user details in a table format, including Email, Email verified, Language, Username, API User Id, Organization, Locked status, and Last login. The bottom section shows the 'ROLES' tab selected in the navigation menu, with an 'Add Role' button and a list of roles, including 'Administrator' with a 'Delete' button. A green arrow points to the 'ROLES' tab in the navigation menu.
