

Auto-enrollment upon course completion

Ester Andersson - 2024-10-27 - Functions

Auto-enrollment upon course completion is a function that lets the system automatically enroll a learner in a new course when another course is completed.

1. Go to the course you want your learners to complete to be enrolled in another.
2. Under "Next course", click "Add next course". Choose the course your learners should be enrolled in.
3. Create an automated communication in the next course to let the system automatically send a welcome email to all registered participants (not mandatory).
4. Your learners now have access to the course!

The screenshot shows the 'Introduction to Learnifier' course page. The top navigation bar includes 'Dashboard', 'Projects', 'Users', 'Library', 'Reports', 'Automations', and 'Settings'. The course title is 'Introduction to Learnifier' with a status of 'Ongoing'. It was created by Demo Ester on Monday, May 29, 2023, and updated by Demo Ester on Tuesday, May 30, 2023. Below the title are buttons for 'Edit course', 'Preview', 'Delete', and 'Copy'. The '9 participants' section shows a progress chart with 9 total participants: 5 Not Started, 3 In Progress, 1 Completed, 9 On Track, 0 Overdue, 0 Not Invited, 0 Bounce Backs, and 0 Project Errors. The 'Awards' section has an 'Attach' button. The 'Next Course' section, highlighted with a green arrow, has an 'Add Next Course' button. The 'Project Team' section has an 'Add Team Member' button. The 'Announcements' section is at the bottom right.
