

Adding and removing project team members

Ester Andersson - 2024-02-16 - Roles

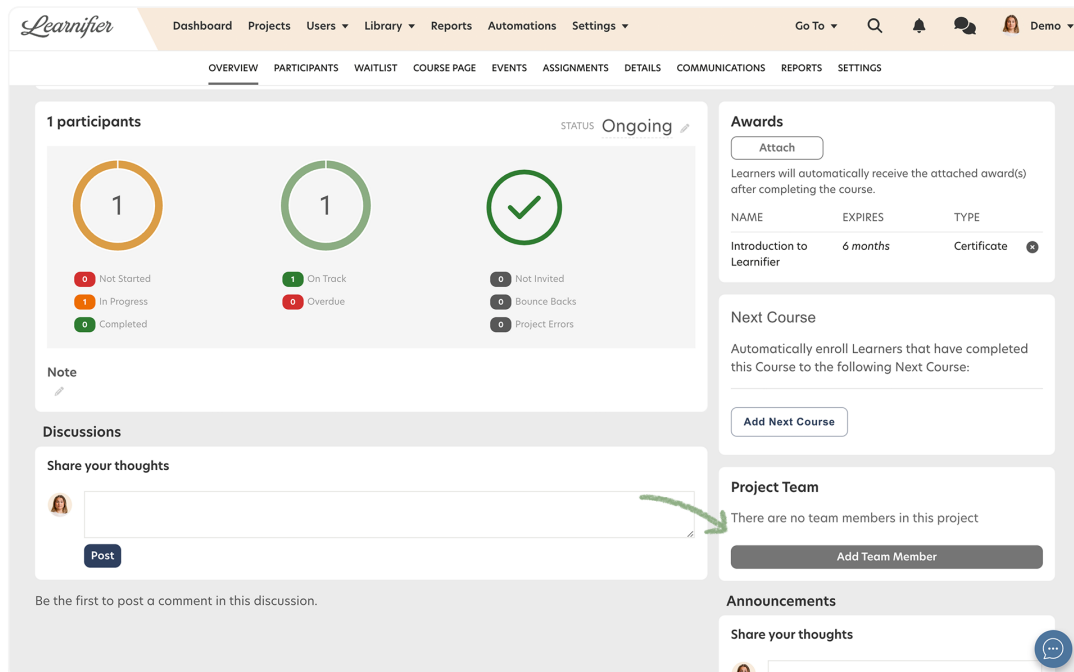

Project team members can be invited to Learnifier to view, but not edit projects or user details. This type of role comes in handy when you want to invite a consultant or a teacher to the Learnifier platform in order for them to participate, see progress, or comment on any online activity on the Learnifier platform.

The 'Awards' section shows a table with columns for NAME, EXPIRES, and TYPE, with one entry: 'Introduction to Learnifier', '6 months', and 'Certificate'. The 'Next Course' section shows 'Automatically enroll Learners that have completed this Course to the following Next Course:' and the 'Add Next Course' button.
