Activate TRUE Certificates in Learnifier

2025-10-15 - Gabriella Eriksson - [Product Highlight](#)

Completing a course isn't just about ticking a box. It's about celebrating learning, building pride, and creating trust.

With **True Originals**, you can now give your participants a **formal, verifiable, and secure proof of achievement** when completing a course in Learnifier.

Each certificate is protected by blockchain technology, making it impossible to tamper with or forge. **TRUE** certificates are always verifiable and help strengthen both learner motivation and your organization's credibility. In short, it's a modern and secure way to demonstrate that learning truly has value.

How to Activate the Service

To activate the service, simply contact your point of contact or email support@learnifier.com with this message:

"I approve True as a sub-processor."

About True Originals

Who is True?

True Originals is a trusted provider of secure digital certificates.

Purpose:

Creating and managing digital certificates only.

How does it work?

When you activate the service, all your courses with attached awards (using Learnifier's built-in award functionality) will automatically generate a digital certificate or diploma through TRUE.

What data is shared?

Participant's name, email address, and course/award details.

Role:

True acts as a subprocessor engaged by Learnifier. We remain fully responsible for ensuring their data handling complies with GDPR.

Safeguards:
