Koble til en LTI 1.3-leverandør i Learnifier

Gabriella Eriksson - 2025-02-23 - API, SAML, integrasjoner og generelle innstillinger

LTI (Learning Tools Interoperability) er en standard som gjør det mulig å integrere læringsplattformer sømløst med eksterne verktøy eller innholdsprodusenter. Den tillater sikker utveksling av data, som brukerinformasjon og kursinnhold, mellom forskjellige systemer. LTI 1.3 forbedrer tidligere versjoner ved å tilby forbedrede sikkerhetsfunksjoner* for sikker kommunikasjon.

Denne integrasjonen gjør det enklere å integrere interaktive komponenter fra dine favorittverktøy sømløst i dine kurs i Learnifier, noe som beriker hvordan elever engasjerer seg med innholdet.

Konfigurasjon: Steg-for-steg-guide

Merk: Steg og innstillinger kan variere noe avhengig av hvilken LTI-leverandør du bruker.

Forutsetninger:

- 1. En konto hos en LTI-leverandør.
- 2. LTI 1.3-integrasjon aktivert i din Learnifier-portal.
- 3. To faner åpne: en med din Learnifier-portal og en med din LTI-leverandør (f.eks., H5P).

På din LTI-leverandørsfane (f.eks., H5P):

- 1. Gå til "Connect LMS"
- 2. Gå til "Add LMS Connection".
- 3. Velg "Other" under "connection options" og lagre.

- 1. Klikk på "Registrer verktøy".
- 2. Åpne "Plattformkonfigurasjon" og la denne informasjonen være på skjermen for bruk i neste steg.

Tilbake til din LTI-leverandørsfane (H5P):

- 1. Gå til siden "Connection Settings".
- Legg til informasjonen fra "Plattformkonfigurasjon" i Learnifier til passende felt (for feltet merket "Deployment ID" i Learnifier: du får dette i neste steg).
 - 1. Viktig: Følg nøye instruksjonene i Learnifier for hvert felt.
